FAUQUIER COUNTY.

WARRENTON, VA., September 80, 1879. Editors Dispatch : Considerable excitement has been created here within the last few weeks by some party or parties who have been discovered a number of times in the act of attempting to enter houses where there were no gentlemen, and especially rooms occupied by ladies. In one or two instances young ladies have been frightened by threatening demonstrations from a negro said to have been in almost a nude condition. All efforts to arrest the daring miscreant bave, so far, been unavailing. These attempts are thought by some to be the freaks of a monomaniac. Others insist that there is "method in his madness," and that there is urgent need of more stringent efforts for the punishment of such outrages.

On Sunday afternoon last the house of Thomas Dillworth, a worthy and well-to-do colored man, was entered from a front window, and upwards of \$200 in gold and greenbacks taken out of a wardrobe. The wardrobe was then fired, but fortunately the flames by some means were stifled and date for the House of Delegates. Rev. Jono damage was done beyond the injury of some clothing. The perpetrator of this daring robbery and attempt at arson is also at large, but hopes are entertained of his apprehension.

The Young Men's Christian Association has recently moved to its new rooms, and arrangements are now being made for a public demonstration on the occasion of the first semi-annual meeting. I voluntarily make the following statement: I have had Salt Kheum on my body and on one leg in a very aggravated form for eight years. No kind of treatment, or medicine, or doctors, during this time did me any permanent good. My friends in Malden and elsewhere know that I have been a great sufferer, and that my condition at times has been such as to make me despair of ever being able to find a cure, or even a relief. In fact, when I began the use of CUTICURA my limb was so raw and tender that I could not bear my weight on it without the skin cracking and bleeding, and was obliged to go about on crutches. I commenced to use the CUTICURA in April, and at once realized its beneficial effects. It gradually drew the inflammation and humor to the surface, and as fast as it appeared healed it. At times large quantities would come to the surface, causing burning heat, inflammation, swelling, and itching, which, under the constant use of CUTICURA, would rapidly subside and heal. Each time these outbreaks grew less and less severe, and finally disappeared, leaving me perfectly cured. I used the CUTICURA ive months, and took the RESOLVENT most of the time, which were the only remedies I used. I think the RESOLVENT a very strengthening and parifying medicine to take in each extreme cases as mine, because the disease is
